Commentary on the Company's trading result is included in the media release and on pages 2 to 3 of the half year report enclosed.

Overview of Financial Performance

Sales grew from $221.6m to $250.5m and net profit after tax grew from $15.6m to $18.9m, representing growth of 13.0% and 21.7% respectively, on the corresponding period last year.

Sales growth was driven by twenty three new store openings (a company record) in the half; continued growth from stores opened during the prior year and comparable store sales growth of 1.0%.

Gross margin, increased from 47.3% to 48.0% of sales compared to the corresponding period last year. The strengthened AUD enabled significant reductions in prices (against increasing prices in FY2009) recouping margin erosion from the prior year.

Operating costs as a percentage of sales, excluding depreciation and amortisation, increased from 35.3% to 35.6%, compared to the corresponding period last year, inclusive of costs to accommodate an increased number of new store openings.

Depreciation and amortisation, as a percentage of sales, increased from 1.6% to 1.7% reflecting the recent investment in SAP.

The reduction in interest expense was mainly due to lower interest rates helping to more than offset the impact of the increased level of borrowings during the year.

Tax expense was moderated by benefits associated with the legislated capital allowance of 30% for FY2010 and the introduction of an employee share trust.

The Company is increasing debt associated with the opening of the new distribution centre, however can still support a strong dividend payout ratio and continued investment in new stores.

Operational Performance

Trading suffered early in the half due to a poor in stock position compounded by tough market conditions. The second quarter and Christmas sales were stronger - supported by an improved stock position and the new store opening program.

Twenty three new stores were opened during the half with one closure, finishing the half with 192 stores. Seven stores were opened in Western Australia, five in Queensland, five in Victoria, three stores in New South Wales, two in South Australia, and one store in the ACT. The new store performance was strong with the majority of new stores performing above expectations.

During the period significant progress was made on a number of strategic initiatives. The new Queensland Distribution Centre has been built with the internal fitout close to completion. The hiring of the first management staff has begun and detailed testing of the operational environment is commencing shortly. The project is tracking ahead of schedule with a progressive ramp up from May 2010 (against an initial plan of July 2010).

Outlook for the remainder of FY2010

The Company is confident of achieving a full year guidance of NPAT between $22.0m to $22.5m, reflecting the strong first half result and a prudent second half plan.

The Company remains confident in its business model and is continuing with its long term growth plans. Four new stores are planned for opening in the second half although immediate profit contribution from these stores is not expected to cover their opening costs during this period. Further investment will be made in resources to support the growth of the business and optimise the benefits associated with the new Queensland Distribution Centre.

The early opening of the Queensland Distribution Centre will require additional costs to be recognised in the second half as well as a build up of stock to maintain service to stores during the transition period from one to two distribution centres. The opening costs and the additional finance costs associated with the stock build up have been factored into the profit outlook.

The Company has a long term projected national footprint of up to 400 stores which will be supported by significant investment in all areas, with particular focus in the short term on Information Technology and Logistics.

Given the sound financial position, the Board has declared a fully franked interim dividend of 39.0 cents per share, consistent with a 75% payout ratio of anticipated full year net profit after tax.

DIRECTORS' REPORT

Your directors present their report on the company and its controlled entity for the half year ended 27 December 2009.

Independent Auditor's Review Report to the members of The Reject Shop Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial statements of The Reject Shop Limited, which comprise the consolidated statement of financial position as at 27 December 2009, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, other selected explanatory notes and the directors' declaration for The Reject Shop Limited (the consolidated entity). The consolidated entity comprises both The Reject Shop Limited and the entities it controlled during that half-year.

Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation and fair presentation of the half year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 27 December 2009 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of The Reject Shop Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. It also includes reading the other information included with the financial report to determine whether it contains any material inconsistencies with the financial report. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our review was not designed to provide assurance on internal controls.

PRICEWATERHOUSECOOPERS

Our review did not involve an analysis of the prudence of business decisions made by directors or management.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001.*

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of The Reject Shop Limited is not in accordance with the *Corporations Act 2001* including:

(a) giving a true and fair view of the consolidated entity's financial position as at 27 December 2009 and of its performance for the half-year ended on that date; and

(b) complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations Regulations 2001.
